

## ASSISTANT PROFESSOR IN VASCULAR PATHOPHYSIOLOGY

The [Department of Pathology and Immunology](#), Faculty of Medicine at the University of Geneva invites applications for an academic position in vascular pathophysiology. The appointment will be at Swiss National Science Foundation (SNSF)-funded assistant professor level, with a possibility for tenure following the term. The appointment is linked to obtaining [an SNSF \(or equivalent\) starting grant](#).

We are seeking a promising young scientist who would like to develop an independent line of research in the field of vascular pathophysiology, including but not limited to angiogenesis, lymphangiogenesis, or macro- and micro-vascular pathologies. The successful candidate will also be involved in teaching at undergraduate and graduate level in the field of cardiovascular pathophysiology.

The Department will provide strong support and mentoring, and the successful candidate can reach out and benefit from the multidisciplinary environment of our [Faculty's Section of Fundamental Medicine](#) (Departments of Cell Physiology and Metabolism, Genetic Medicine and Development, Microbiology and Molecular Medicine, and Fundamental Neurosciences), as well as of the immediate proximity to the Geneva University Hospitals. The selected candidate will also have the opportunity to be part of our newly created [Geneva Centre for Inflammation Research](#).

Switzerland has an exceptionally high human development index and consistently ranks highly in quality of life, economic competitiveness, and innovation. The University of Geneva attracts outstanding scientists from all over the world and offers excellent research infrastructure and environment in a beautiful natural setting. The University is an equal opportunities employer and particularly welcomes applications from women.

Applicants need to hold a PhD and/or MD, and have an excellent scientific track record. To apply, please submit a cover letter, a curriculum vitae including a publication list, a concise (not more than 3-page) statement of future research plans, and the contacts of 3 referees who would be ready to supply their letter of recommendation upon request to [Ilse.Jonker@unige.ch](mailto:Ilse.Jonker@unige.ch).

Applications should be submitted preferentially before July 15th 2023. Starting date: end of 2024, or as agreed.
